OF NEW BRUNSWICK

AUDITOR GENERAL VÉRIFICATEUR GÉNÉRAL OUVEAU-BRUNSWICK

# ALC's governance framework is insufficient to deal with its strategic challenges

# **Improvements to the governance framework are necessary for ALC to:**

- function effectively and efficiently in maximizing shareholder governments' returns;
- ensure it knows and respects its operating limits; and
- avoid potential loss of market relevance

Volume II - Chapter 1 & 2 1.5, P. 9, 2.10, 1.8 AUDITOR GENERAL OF NEW BRUNSWICK

# Mandate is Not Clear

#### ALC's complex mandate comes from multiple sources including:

- 4 sets of provincial gaming legislation
- 3 provincial gaming strategies (NB, NS, PEI)
- The Unanimous Shareholder Agreement
- ALC agency agreement with NSPLCC
- Mandate Letter (signed by NB, NL, PEI)
- ALC mandate statement in its annual report

Volume II - Chapter 2 2.15

AUDITOR GENERAL VÉRIFICATEUR GÉNÉRAL

-BRUNSWICK

# Recommendation

We recommend the shareholder governments complete an *in-depth review of ALC's* mandate that considers:

- how the Corporation fits into each government's gaming policy and public policy objectives; and,
- the organizational structures required.

IVEAU-BRUNSWICK

Volume II - Chapter 2 **Recommendation 2.1** 

VÉRIFICATEUR GÉNÉRAI AUDITOR GENERAL OF NEW BRUNSWICK

# **Board composition is challenging effective operations of ALC**

- Dual role (public servant & director) may hinder governance effectiveness
- Potential conflict due to divided loyalties
- Examples:
  - -By-law changes regarding director appointment process
  - -Pension plan funding deficit

Volume II - Chapter 2 2.74, 2.75, 2.78

# Recommendations

- Board members should not be elected officials nor employees of Government
- Shareholder governments should change the role of public servants on ALC Board to non-voting...in accordance with best practice.
- **Response**: "Disagree"... "Shareholders believe that it is in their best interests to continue to have a government representative at the board."

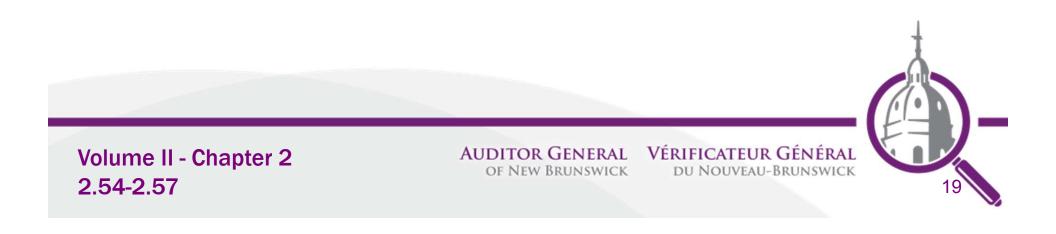

Volume II - Chapter 2 Recommendation 2.12-2.13

# **Unclear Board Authority**

- Confusion around ALC's decision-making authority as roles and responsibilities of ALC and governments are not defined
  - -Unanimous Shareholder Agreement amendments
  - Three legal opinions obtained for guidance

# **Timely Info. Not Provided to Board for Effective Decision Making**

- ALC Board approved a strategy calling for nontraditional growth, mobile gaming and expansion outside Atlantic Canada.

Volume II - Chapter 2 2.27, 2.57

OF NEW BRUNSWICK

# **Investment in Geonomics**

- Investment involved a start-up UK company and a new online lottery called GeoSweep
- In 2011, ALC board authorized the \$8 million investment as it supported multiple aspects of the corporate strategic plan
- Only PEI & NB participated in the investment
- Entire value of investment written off in 2015
- Loss absorbed by NB & PEI governments

Volume II - Chapter 2 2.65-2.69

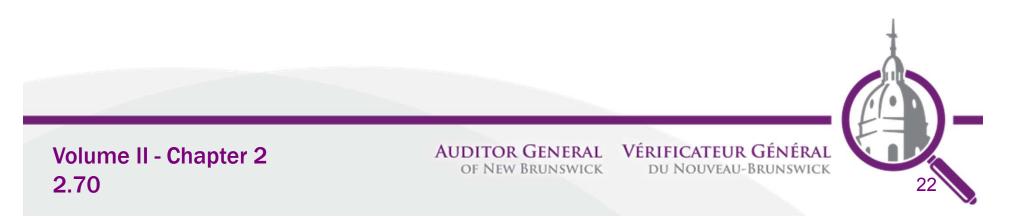

# **Investment in Geonomics**

### The ALC Board failed to:

- Consider risks and tolerance of governments, the impact on ALC's reputation and ability to pursue future ventures
- Conduct its own independent due diligence work

# **Investment in Geonomics**

# Management did not fully disclose all relevant information and risks to the Board such as:

- high risk nature of investing in a tech. start-up;
- Roboreus' impending cash shortage;
- business plan assumptions were considered optimistic; and
- untested nature of the game and daily draw structure.

Volume II - Chapter 2 2.70-2.71 AUDITOR GENERAL OF NEW BRUNSWICK

# Recommendations

#### Overall, we recommended the Board should:

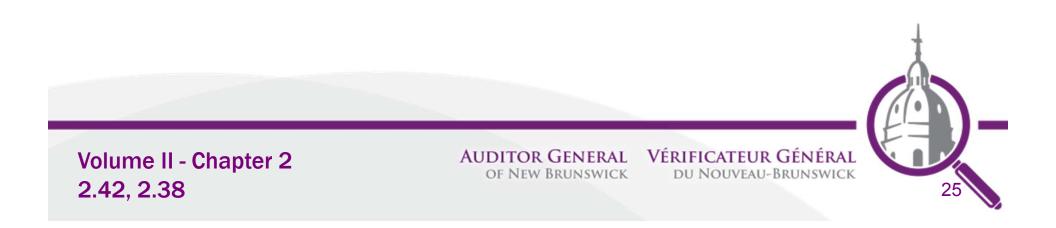

- ensure risks are thoroughly assessed for future initiatives; and
- obtain all info. required for this assessment
- ALC agreed with our recommendations
- We found the Board better exercised their oversight on subsequent major initiatives

Volume II - Chapter 2 Recommendations 2.9-2.11, 2.73 AUDITOR GENERAL OF NEW BRUNSWICK

#### Weaknesses in Accountability Framework

- Lack of defined roles and responsibilities
- Governments failing to provide clear and timely performance expectations
- Public reporting on performance not meeting recommended practices

# **Government Intervention Causes** Inefficiencies

• Unclear accountability allows for disruptive government intervention

#### **Techlink Example:**

- NS ordered ALC to override business processes and advance \$1.26 million to Techlink
- Directive was carried out against the recommendations of ALC and the Board

# **Stakeholder Relations Spending**

Approx. \$73,000 claimed for tickets to

various events used for stakeholder relations :
