

2023 Volume II

Chapter 4 Highlights

Numerous staff consistently stepped up in the navigation of these unprecedented times

While various performance targets were established, outcomes were not consistently monitored, tracked, or used for decision-making

Department of Health was designated the lead for the pandemic health response

We found that the Department and Regional Health Authorities went above and beyond to support New Brunswickers during the pandemic

Overall Conclusions

- The Department had numerous systems and procedures designed to reduce the spread of COVID-19.
 - Areas for improvement were identified to assist in planning for future pandemics.
-
