# Blueprint for English Reading Assessment Grade 4

## Overview

The *Grade 4 English Reading Assessment* is an assessment of students' reading skills based on the *Atlantic Canada English Language Arts Curriculum Outcomes - Grade 4* and the *New Brunswick Provincial Achievement Standards in Reading - End of Grade 4*, which are aligned with the Organization for Economic Co-operation and Development's (OECD) definition of functional literacy. Data obtained from the *Grade 6 English Reading Assessment* provide information about individual student achievement and school, district, and provincial trends.

The assessment is administered to all students in Grade 4 unless an exemption has been granted. To be successful, students must attain a level of *Appropriate Achievement (AA)* or above. The assessment is administered annually in the spring.

## Reading Comprehension

The *Grade 4 English Reading Assessment* consists of selected-response items based on a selection of literary and information texts. Students read the passages and respond to all items through *Assessment Master*, the online assessment platform. Students have 60 minutes to complete the assessment with an additional 60 minutes offered as a universal accommodation. Texts and items for the assessment are selected by a committee of New Brunswick educators and are based on the *English Language Arts Curriculum Outcomes - Grade 4* and the *Provincial Reading Achievement Standards - End of Grade 4*.

New Brunswick provincial standards outline two specific categories of text: literary and informational. Additionally, three levels of comprehension response are detailed within these standards: literal, inferential/interpretive, and personal/critical/evaluative. Item selection committees design items that measure students' abilities to respond to both categories of text with all three levels of comprehension. This allows for individual reporting of achievement for each text form, response level, and overall performance.

On page 3, the table titled "Grade 4 English Reading Assessment Targets" presents a breakdown of the assessment by text categories and comprehension response types. This table also indicates the number of questions assigned to each category and comprehension response level.

The *Grade 4 English Reading Assessment* aligns with the *Provincial Reading Achievement Standards - End of Grade 4*; however, not all aspects of these standards can be measured effectively through the selected-response format. The table titled "Provincial Reading Achievement Standards - End of Grade 4 Appropriate for the Selected-Response Item Format" on pages 4-5 specifies the standards that are appropriate for this assessment format. It should be noted that ongoing classroom assessment is not limited to selected-response questions such as multiple-choice. Regular and consistent formative assessment in the classroom continues to be an effective measure of all aspects of the *Provincial Reading Achievement Standards*.

The *Administrative Protocols and Procedures* document provides detailed information on the administration of the *Grade 4 English Reading Assessment*. For information on accommodations and exemptions, please refer to *Protocols for Accommodations and Exemptions*.
