CARBON DIOXIDE MONITORING AT ACADEMIE ASSOMPTION

TSI Q-Trak IAQ monitors were used to data log carbon dioxide (CO₂) at Académie Assomption in Bathurst on April 29, 2021. The IAQ monitors were placed in several locations within the school as directed by school district personnel (see attached floor plans). The results can be seen in Tables 1-7 and attached Figures 1-6. CO₂ values are reported in parts per million (ppm).
